

REPLICATIONS UNLIMITED

POOL NEWSLETTER: 2006 SPECIAL BLUE HAVEN EDITION

WAREHOUSE STOCK IN NORTHEAST

Replications Unlimited, St. Louis, Mo has set up Warehousing out of New Jersey for our Northeast Customer Base. All products are being stocked in both Fieldstone and Slate Gray. Some other colors are available depending on demand. Products can be picked-up free of shipping charges in New Jersey or shipped out of New Jersey, reducing the shipping costs from St. Louis.

Please let us know how we can assist you with our artificial rocks and rock waterfeatures.

NEW PRODUCTS FOR 2006

Replications Unlimited offers a series of waterfalls, deck rocks, and landscape rocks to create a tropical ambience around new or existing pools. This year we have developed six new items that will further complete our goal of blending our existing waterfalls into the background of a customers pool.

First, we added two bases for the Hawaiian (a unit for a corner and a unit for a straight area). These units raise the Hawaiian waterfall to 40 inches in height and provide a more picturesque water feature.

Secondly, we developed two new very large "transition rocks" that link the Hawaiian with the new base (PWF 287) and two of our additional waterfeatures (PWF 285 Aruba Falls and PWF 283 Martinique Falls) as pictured below, and finally we have added two larger deck rocks.

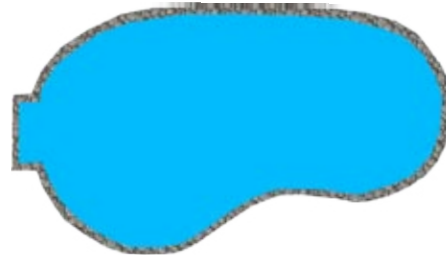

CUSTOM GROTTO WATERFEATURE FOR SALE

FRONT VIEW

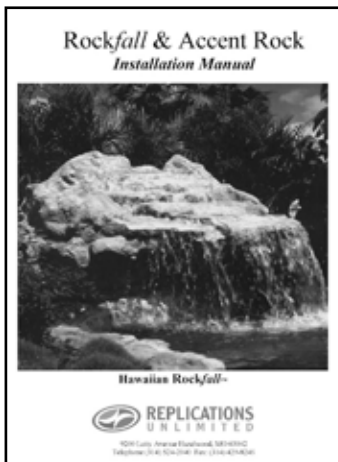

SIDE VIEW

Replications Unlimited has a Custom Rock Project Department that builds medium to very large artificial rock water features that are factory built in modular sections ready to install in less than a day. The feature in the picture is a custom built pool grotto designed for a swim out section of a pool and is in stock and available to the first pool builder that orders it (picture showing feature is uncolored). It is able to be shipped via a standard truck. See our website for more pictures and call us for a price.

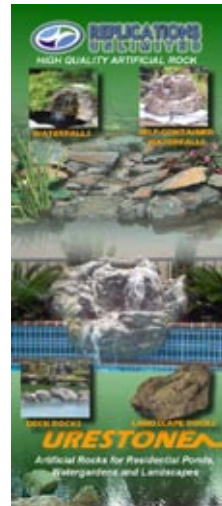

Dimensions: Exterior: 12 ft. wide x 8 ft. depth x 7 ft. high
Interior: 7 ft. wide x 4 ft. depth x 5 ft. high

MARKETING SUPPORT TOOLS

TECHNICAL MANUAL

This manual contains specification on the RockFalls product line and installation details. This is provided to builders on their first order. If you are a present customer needing one, please contact the sales department.

TRIFOLD FLYERS

This flyer is an overview of our product line and is designed to handout to potential customers. We will provide 75 of these with a counter top holder for each order. Additional trifolds available at cost with or without purchase.

POSTER

Our large poster is available to hang up in your store or office. These are free with your order of \$5000. Additional posters available at cost with or without an initial purchase.

If you have any other questions, please contact us at sales@replicationsunlmtied.com
